# IN JEFFERSON COUNTY?

We need **YOUR HELP**  
to create our community's  
Transportation Vision!

## Shaping transportation investment through 2040

Jefferson County is updating its Transportation System Plan (TSP) to guide transportation investment through 2040. The TSP is key to managing the county's changing transportation demands due to population growth, economic development, and changing commute patterns.

## What's in the TSP?

Jefferson County's updated TSP includes all forms of transportation in the county, including vehicles, transit, walking, bicycling, rail, and air. It incorporates new technology to enhance safety and mobility.

## How can I get involved?

We invite you to participate in two opportunities to provide input on key elements of the TSP that will help shape the county's transportation system over the next 20 years. Details are available to the right.

## Make Your Voice Heard!

**Live Online Public Event**  
Thursday, April 1st  
5:30 to 6:30 PM

**Virtual Open House**  
Open April 1st to April 15th

Meeting links available at  
[jeffersoncountytsp.com](http://jeffersoncountytsp.com).
